

## Chess festival Brno 2008

Dear chessfriends,

It is an honour to me to welcome you on the official website of the Chess festival Brno 2008, which counts among the most important chess action in the South Moravia. Over the years this tournament reached the stable position in the overfull Czech tournament calendar. Like the last year the tournament will take place in the luxury hotel BOBYCENTRUM, which will offer the best chess conditions for all players within the whole tournament.

Two open tournaments (FIDE and national) and of course traditional series of closed tournaments (one grandmaster and 2-3 masters) are prepared (more details you can find in separate specification). We are pleased that more and more players participate in this tournament. Let us to thank our partners for their support, because without them the tournament would not be able to realize. I hope that you enjoy our websites, but first of all, you will visit the playing room and you will take part in the Chess festival Brno 2008!

Bronislav Chmelík
